Stop the Roe Act

Say No to HB 3320 and SB 1209
Oppose the Roe Act Infanticide Bill

The Roe Act Infanticide bill filed in MA is part of a national effort promoting an extremist abortion agenda that recently made headlines in NY and VA. This horrific legislation would:

- **Legalize Infanticide**
- **Eliminate Parental Consent and Notification laws completely**
- **Remove the requirement later term abortions (considered medically risky) are performed in hospitals by doctors**
- **Expand on-demand, no-questions-asked abortions beyond 24 weeks**
- **Increase taxpayer funding for abortion**

*Leftists argue that these measures must be taken to prepare for changes to federal law. But large majorities of voters believe that if abortion is allowed, it should be safe for women, and only undertaken for serious reasons. **Reasonable restrictions currently in place to ensure that abortions are safe and rare are removed entirely in this wholesale re-write of the abortion laws.** Elected officials need to hear that the Roe Act goes too far.*
